THE ULTIMATE HYDROTHERAPY MACHINE

HELIX™ JETS: A NEW SPIN ON SPA JETS

The Island Class utilises Artesian's **revolutionary** patented Helix™ jets to provide the best possible hydrotherapy massage available. This can be combined with our unique Neck and Foot Blasters to provide a full head to toe massage. You even have the option of adding our exclusive **Pulsating Wave Technology** to your spa, providing the ultimate hydrotherapy experience.

This superior jet, aptly named the Helix™, has been designed to provide a truly remarkable hydro-massage exclusive to Artesian Spas. Engineered from the concept of the double helix, the jets use a right-directional spiral on the inside of the cylinder. This causes water to spiral out in a twisting manner, providing jet pulsation and great massaging pressure. As a complete system, these jets provide the very best in hydro-massage.

ProHelix™ Jets

Large rotary Helix jets providing a high volume of water to massage large muscles in the body. The jets can be set to provide a large or small sweeping massage that relaxes tense muscles.

TheraHelix™ Jets

Midsize Helix jets, strategically placed in small groups to massage muscles such as calf, hamstring, deltoids, and triceps. These jets provide a therapeutic massage to areas of the body where you need it most.

AccuHelix™ Jets

Small directional Helix jets placed in large groupings to massage larger regions of the body. These jets drive into muscles with pin point accuracy in a corkscrew manner giving a powerful massage.

Neck & Foot Blasters

Extremely powerful large jets with several outlets providing multiple blasts of water to effectively massage the shoulder / neck region and feet.

PULSATING WAVE MOTION

You can experience a whole new hydrotherapy sensation with this fabulous new feature. At the touch of a button the pressure will slowly change from a mild massage to a full deep tissue massage with a pulsating effect then back to a mild massage. This will continue until the button is pressed again.

This replaces the traditional Diverter control and by doing so also increases the spas efficiency as no power is lost by the friction caused when water hits the dead end of a diverter.

Available on all spas with 45 jets or more.

Every Island spa can have an ozonator installed for 24 hours of treatment.

This higher output ozone generator combined with vortex mixing chambers gives crystal clear water and requires even less chemicals than standard ozone. When combined with Artesian's Nature 2 technology, the spa water exceeds the EPA's standards for bottled drinking water.

CRYSTAL UVC

Crystal UVC produces an ultraviolet light inside a quartz chamber using a powerful 15 watt UVC ray lamp. This lamp produces the optimum wavelength for destroying and eliminating viruses, bacteria, algae, yeast, mold and micro-organisms. This same technology is used at water bottling companies and for hospital equipment sterilisation.
