Seating	3
Jets	33
Pumps	2hp 2spd
Dry / Filled Weight	231kg / 1045kg
Water Capacity	814 ltr
Size	208 x 165 x 79 cm

### Standard Class - superior spas, exceptional value

Standard Class Spas have been hand-sculptured with a contemporary, elegant design that adheres to the human body perfectly for maximum comfort. A high quality design, requires high quality workmanship, and these spas deliver with a superb choice of models, high performing insulating covers and maintenance free cabinetry.

These spas have been designed to perform to their maximum capability, yet are very energy efficient, featuring ArcticPac Insulation, energy efficient pumps and quiet low speed filtration.

Standard Class Spas set the bar high for an introductory range and are perfect for someone looking for a superior spa with exceptional value.

### Deluxe Class - step up for an extra touch of luxury

Deluxe Class Spas exude luxury, adding many innovative features to the great design features already found in the Standard Class Spas.

Supreme hydrotherapy is achieved within this class by introducing a high number of jets and exceptionally powerful pumps to every Deluxe spa. With a choice of one, two or three pumps, you will always find a spa with the right power for you!

All models have Dynastar multi-colour lighting and a back-lit pillowfall as standard to provide a wonderful night-time ambience. You will also find additional top-rail lighting and cabinet downlights to most models providing a touch of tranquillity above the water and outside of your spa.

## 600 Series

### 627M DX

# Features

## Dynastar Multiple LED Lighting

The Dynastar LED lighting system illuminates the texture and detail of the spa's interior. It can be set on one favourite colour, or the colours can slowly fade into one another, creating a truly spectacular light show. Includes 3 small lights, 1 large light and light up water feature.

*Note: Standard on all Deluxe Class models and Optional on Standard Class models.*

### Pillowfall

South Seas Deluxe spas come standard with the serenity-enhanced pillowfall water feature. Simply enjoy the serene sound of the falling water or nestle under and feel the soothing warm water sweep down your neck and back. Plus, with the Dynastar LED lighting system, the Pillowfall is infused with multi-colour light.

*Note: Standard on Deluxe Class spas and Optional on Standard Class spas, (not available on 519P).*

## Stainless Steel Escutcheons

Provide an elegant, glimmering accent that is also corrosion resistant.

*Note: Standard on all spas.*

Large 5" Jets

Neck Jets

## ArcticPac Insulation

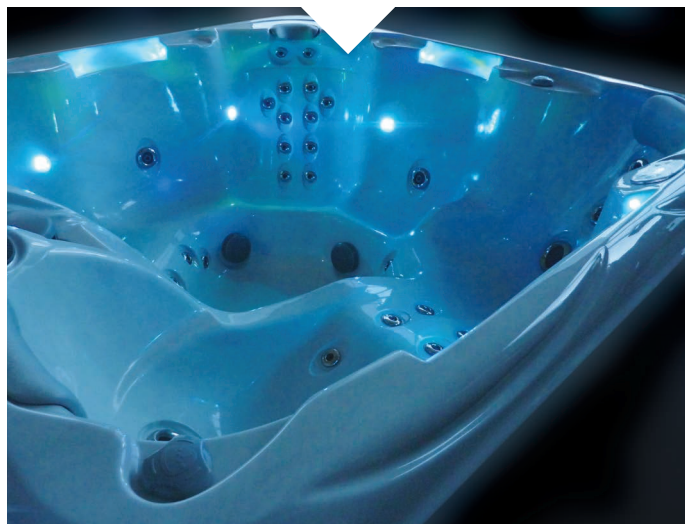

Foamed shell and plumbing combined with the reflective radiant barrier provides excellent insulation in any climate.

*Note: Standard on all spas.*

## Top Rail Lighting

The striking sculptured design of the South Seas range is set off beautifully with top rail lighting and cabinet downlights to give you a contemporary light show above the water as well as below.

*Note: Standard on most Deluxe Class models and Optional on most Standard Class models.*

## Complete Variety of Jets Inc. Large 5" Jets

The larger jets provide a high volume of water to massage large muscles in the body.

The midsize jets are strategically placed in small groups in the spa to massage muscles such as calf, hamstring, deltoids, biceps and triceps.

The smallest jets are placed in large groupings to massage larger regions of the body, such as the entire back.

As a complete system, four or five different sizes of jets including both rotary and directional are featured in every South Seas spa model.

*Note: 5" jets are Standard only on Deluxe Class spas.*

## Dedicated Neck, Leg & Foot Jets

Soothe your neck and shoulder pain with the South Seas neck jets. This innovative design features two powerful jets that relieve tightness and relax muscles where you need it most.

Specially designed leg and foot jets are available on selected South Seas models, some with a dedicated foot dome. These provide a localised massage to areas of the body that a lot of other spas miss, to give you a head to toe massage experience.

*Note: Neck jets are Standard on select Deluxe Class spas. Leg and foot jets are available on most Deluxe Class spas and some Standard Class spas.*

## Maintenance Free Cabinetry

Beautiful, long-lasting GrandWood adds years of maintenance-free life to your spa. It will not rot, rust, warp or deteriorate. Panels are made of a durable, fade resistant, synthetic material that can withstand the harshest weather conditions. No painting or staining is required, just a little soap and water if necessary. Best of all, no trees required!

*Note: Standard on all spas.*

## Deluxe Spa Cover

The foam cores are virgin, polystyrene foam that is tapered from 100 to 60mm to allow water to run-off. They are built to withstand the effects of sun & weather, saving energy with lower total cost of ownership.

*Note: Standard on all spas.*

## ABS Base

ABS is a sealing for the bottom of your spa. Unlike traditional spas that only use plywood, an ABS base will not rot and protects your spa from the elements and rodents.

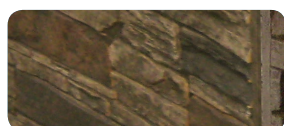

*Note: Standard on all spas.*

## Optional Rock Cabinet

### Maintenance Free Rock Cabinet

Beautiful, long-lasting rock cabinetry is an available option. This all-weather cabinet is durable, fade and stain resistant.

*Note: Rock cabinetry is an optional upgrade on 700, 800 and 900 series spas only.*

Java Rock

Sandstone

## Optional Features

### Single Multi Colour LED Light

A 10 LED Multi Colour light can replace the standard spa bulb (Option for Standard Class spas only).

### Full Foam Insulation

Full foam provides the most efficient heat retention available in any spa. The Icynene brand of full foam secures plumbing to the shell for longer plumbing life and provides a seamless air barrier, for even better insulation.

### Ozone with Mazzai Injector

Ozone provides additional water treatment that purifies water faster than chlorine. With ozone, your spa water will require fewer chemicals to be added.

### AOP Water Purifier

Advanced Oxidation Process (AOP) combines UV Sterilisation with Ozone to create a powerful purification system.

### Spa Frog System

The Spa Frog® Fresh Mineral Water In-Line System offers water care that is built into the hot tub with no touching or measuring chemicals. Simply replace the bromine and mineral cartridges when required.

## Stereo Options

*\*Note: not available on 519P, 521L, 532L, 533DL, 617C, 627M, 627C models.*

### Artesian Bluetooth Music Experience

- Bluetooth Receiver (to stream music from your smart phone or smart device)
- AM/FM Receiver
- 4 Marine-grade Speakers
- Sub Woofer

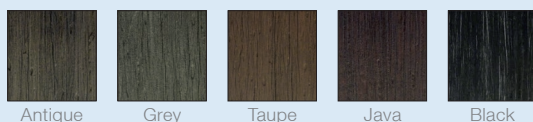

### Patio Speakers

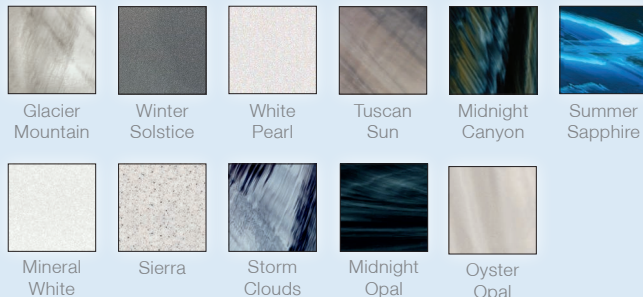

Additional patio speakers mounted on the front cabinet of the spa allow you to listen to your sound system while the spa's cover is on, so feel free to use your stereo equipment whilst gardening or entertaining outside.
