Options

You can choose a standard house from the catalogue or order a house according to your own design on a bespoke basis. To achieve the best possible result, the combination of various parts of the house has to be planned:

Walls

Roof

Floor

Doors

Windows

Walls

Our products are available in 2 quality grades: **summer house grade** (houses with a wall thickness of 34 mm or more) and **living house grade** (houses with a wall thickness of 68 mm or more).

Solid timber

STANDARD

Thickness options:

34 mm; 42 mm; 44 mm; 68 mm.

Glued timber

OPTIONAL

Thickness options:

68 mm; 90 mm; 120 mm; 160 mm.

Additional reinforcement

U profile

Wall reinforcement

Window / door reinforcement

Doors

Windows

We are a manufacturer of wooden houses, but we can also offer our customers high-quality windows and doors of our own production. We offer our customers several options for wooden windows and doors. We can offer standard products or modify them according to our customers' needs.

Colour palette

We can also offer our customers factory painted wooden windows, in 3 different colours. For other product colours, please contact the manager.

White
(RAL9016)

Anthracite grey
(RAL7016)

Brown wood
(RAL5070)

Standard sizes

We are offering standard sizes to simplify your ordering. However, we can produce custom size doors and windows according to your specification.

Doors dimensions

Windows dimensions

More information about windows and doors on page 152

Doors and windows types

Windows shutters

Shutters can only be ordered with inside-opening windows. Hence, shutters cannot be applied for Silver line quality.

**Roof****Floor**

Choose between two board thicknesses:
19 or 28 mm floor boards; 17 or 19 mm roof
boards. Solid roof beams as standard or glued
as an option.
