Remanso Luxury Pergola

Nowadays many people dream of having their perfect garden, where they can spend time with the family and friends creating wonderful memories.

At Remanso we make that happen...

Why chose a Remanso?

Remanso Luxury Pergolas create the ultimate outdoor living space. Constructed from heavy duty powder coated aluminium with fully automatic opening and closing louvre-style roof. It allows a light breeze in when open, protects from the sun or the rain when closed. Includes LED roof lighting as standard.

Available with optional automatic blinds or fixed louvred side panels. All operated via remote control. Perfect for hot tubs, outdoor kitchens and alfresco dining.

Blinds / Louvre Side

Fully Electric

Heaters

Alfresco Dining

Outdoor Kitchen

Hot Tub

Motorised Roof Louvres

The motorised Remanso Louvres can rotate from their fully closed position through 145° (and be paused at any increment in-between) thus tracking the path of the sun creating your desired level of shading.

Integrated LED Lighting

Integrated 360° degree LED lighting within the roof profile surrounds the Remanso to create a perfect outdoor setting day or night.

Aluminium Frame

All Remanso Pergolas are built from heavy duty powder coated aluminium in a stunning Anthracite colour, to create a strong, hard wearing and reliable structure that will last for years to come.

Integral Rainwater System

The Remanso boasts a innovative rainwater system that deals with heavy rainfall offering protection in all weathers. The drainage is part of a discreet internal system which allows the water to exit through the base of the posts.

Multi Function Controller

Every Remanso comes with an easy-to use remote control that operates the roof louvres, LED lighting and optional vertical blinds. (non-waterproof)

Optional Adjustable Side Blinds

The Remanso has optional blinds that can be integrated within the louvred roof system allowing additional shade, shelter and privacy at the touch of a button.

Optional Fixed Vented Side Panels

The Remanso vented side panels with static louvres are designed to add privacy and shade. Unlike the roof panel the louvres are fixed in an optimum angled position. A stylish addition to any size of Pergola.

Optional Wall-mounted Heater

The Remanso wall-mounted heater uses a high efficiency infrared carbon fibre heating element. The 1800W element produces totally dry heat, no condensation, no gas, no fumes and no smell.

1800W Outdoor Heater

Are you ready to create the ultimate outdoor living space?

To create a beautiful, relaxing outdoor space in your garden, the first thing you need is some shade.

An electric pergola is the perfect solution for outdoor living areas. Its all-weather roof design gives you so many options for relaxation, entertaining, cooking, and more.

Remanso creates a unique style element in any terrace, garden or outdoor living area.

Available Size Options:

3m x 3m

4m x 3m

5m x 3m

5m x 4m

Perfect for spending time in your garden on those cooler evenings the Remanso outdoor heater will keep you and your guests nice and warm.

The Remanso wall-mounted heater uses a high efficiency infrared carbon fibre heating element. The 1800W element produces totally dry heat, no condensation, no gas, no fumes and no smell.

This sleek and unobtrusive heater is made from a strong aluminium casing, powder coated to match the Remanso frame. It can be easily mounted to the pergola frame and includes simple brackets that are also adjustable so you can steer the heat to any direction. It comes with a remote control as standard.

With a Remanso outdoor heater you can relax in the garden whatever the weather.

Heaters can be attached to any size of Remanso, but its not possible to have a heater and blind/louvre on the same side.

Remanso Pergolas must be installed by an authorised dealer and is not designed for customer self-build. It is essential that the patio area/base is 100% level.

Automatic Blinds

To create the perfect garden oasis, the automatic Remanso blinds will add privacy and shade.

These deluxe automatic blinds are operated by a simple remote control. A single remote can operate up to 6 blinds. Each blind can quickly be set in its desired position.

The fabric is made from a tough PVC coated all-weather material which is easy to clean. They require minimal maintenance and will withstand wear and tear for many years of outdoor use.

The fixed cassette adds an element of weatherproofing to the Pergola, allowing you to enjoy your outdoor space with the added protection from the wind and rain due to the side of the screens being zipped into the frame.

Vented Side Panel

These beautiful static panels are a striking addition to any Pergola, fixed in-between each set of legs, although they don't rotate like the roof louvres, they provide privacy, shade and style to the Remanso Luxury Pergola.

Constructed from toughened aluminium and powder coated to match the rest of the pergola. Each panel contains louvres which are fixed in the optimal position to allow light in while providing subtle shade to your outdoor space.

The Remanso side panels look stunning and will take your Pergola to the next level.

Automatic blinds are available for the following sizes:

3m x 3m 4m x 3m 6m x 3m 5m x 4m

Vented side panel are available for the following sizes:

3m x 3m 4m x 3m 6m x 3m 5m x 4m
