Luxury Hot Tubs & Swim Spas

Reef Spas

Make your dreams come true...

3D VISUALIZER

Reef Spas 3D Visualizer

Using the latest 3D technology, you can view any of the Reef Spa range of hot tubs and swim spas using your phone, tablet or computer in full 360 degrees. This handy feature allows you to view, spin and zoom-in to explore the design features in more detail.

The Reef Spas 3D Visualizer uses the latest augmented reality software enabling you to see a virtual 3D model of the hot tub in your actual garden space. You can place virtual true-to-scale models of each tub in your very own surroundings.

To try it simply scan the QR code (right) with the camera App on your device. Just follow the simple instructions to access the 3D Visualizer for yourself.

Reef Spas

Why choose Reef Spas?

Reef Spas™ are proud to offer a wide selection of great value hot tubs and swim spas. Each model has been developed by our team of experts with almost 20 years of industry knowledge. Reef Spas™ offer the finest hot tubs and swim spas without ever compromising on design features or quality.

We understand that buying a hot tub or swim spa is a big investment for you and your family. That's why our experienced team are always on hand to provide the best advice so that you can choose the perfect hot tub or swim spa that best fits your budget and needs.

Your local friendly dealer will be happy to show you all the great features that Reef Spas™ has to offer.

Health Benefits

Relaxing in a Reef Spa allows you to escape to a calmer place, far away from the stresses of everyday life where immersing your body in warm water allows the body to recharge and revitalise itself.

Hydrotherapy is recognized as one of the best forms of therapeutic treatment for everyone, regardless of age. Being in water eases pressure in joints and muscles, while the heat increases blood flow and accelerates healing.

Hydrotherapy Massage Jets

To enjoy the best hydrotherapy massage, it is vital that you have not only the right number of jets but also jets in all the right places.

We design our hot tubs to target specific muscle groups, giving you the very best massage experience with powerful pumps and completely adjustable jets that offer a variety of effects and allow you to fully personalize your massage.

Latest Technology

Innovation is at the forefront of every Reef Spa design, and we use the latest technology throughout including stunning LED lighting on all models, to help create the perfect mood.

Our control panels are intuitive and simple to use. Most models use the latest touchscreens with integral Wifi allowing you to control the spa from anywhere at any time, directly from your phone. For music enthusiasts every Reef Spa comes with Bluetooth connectivity making it easy to listen to your favourite music.

Construction

Reef Spas boast a maintenance-free cabinet crafted from high-quality impact-resistant composite in graphite. The exterior panels are durable, weather-resistant and virtually maintenance-free.

The steel frame in every Reef Spa, offers superior structural integrity and corrosion protection, being 250% stronger than wood alternatives.

The high tensile ABS strength base ensures stability, heat retention, and protection against moisture and wildlife.

HeatSave Premium Insulation

Energy use is important to us and to you. **HeatSave2** is designed to minimize heat loss, increase thermal retention, and keep your running costs as low as possible. Each panel has a reflective insulating lining, and the acrylic shell has several layers of ultra-efficient insulation which prevents climate ingress, thermal loss and recycles latent heat.

All models with touch screen controls have the upgraded **HeatSave3** insulation which benefit from an additional layer of insulation in the form of a high-density foam barrier.

2 - 5 Year Warranty

When buying a Reef Spa you can be confident in the knowledge that you are buying a quality hot tub with the manufacturer's warranty offering a full 5 years on the steel frame construction against any defects, 3 years on the acrylic shell, and components such as pumps, heaters and controls have a full 2 year warranty.

Warranty Claims are subject to Reef Spas Terms and Conditions (Available on request).

Reef Spas Acrylic Colour Options

Immerse yourself in the ultimate spa experience with our stunning acrylic colour options: Silver Marble and Odyssey Grey. We understand that every detail matters when it comes to creating your personal oasis, and our acrylic choices are designed to elevate your spa to a whole new level. **Alternative colour options available as a special order.**

Reef Spas

Holiday Let Range

MAKE YOUR HOLIDAY LET STAND OUT With Reef Spas Award-Winning Hot Tubs

At Reef Spas, we understand what today's guests are searching for – comfort, luxury, and that unforgettable experience. Our Holiday Let Range of hot tubs is designed specifically for the demands of short-term rentals, offering exceptional reliability, energy efficiency, and user-friendly controls.

Whether you manage a cosy countryside cabin, a seaside retreat, or a modern glamping pod, a Reef Spa is the perfect addition to increase bookings, enhance guest satisfaction, and boost your property's appeal all year round.

Why Choose Reef Spas Holiday Let Hot Tubs?

- **User-Friendly Topside Controls** - Both the Ocean and Coral boast simple, intuitive topside control panels. Guests can easily adjust temperature, jets, and lighting without any hassle, making their soak relaxing from the moment they step in.
- **Heat Pump Ready Fittings** - Designed with future-proof energy efficiency in mind, our holiday let spas come equipped with heat pump ready fittings. This means your property can enjoy environmentally friendly heating options that save on running costs while keeping guests warm and comfortable.
- **Quick Drain Piping** - Maintenance is a breeze thanks to quick drain piping. Draining and refilling your hot tub can be done swiftly and easily, minimising downtime and maximising guest satisfaction and property upkeep.

- **WhatSpa? Best Buy Awards** - Our Ocean and Coral models are proud winners of the prestigious WhatSpa? Best Buy Award for Holiday Let Hot Tubs, recognised for their quality, value, and performance in rental settings.

Add Value & Attract More Bookings

A Reef Spas Holiday Let hot tub is more than just an amenity – it's a key selling point. Offering your guests a private spa experience enhances their stay, encourages repeat bookings, and helps your property stand out in a competitive market.

The outstanding Cayman Swim Spa which employs the latest T3 Truwave Turbine Technology to provide the ultimate swim experience. If you are looking for a deep swim spa with the power to accommodate the strongest of athletes or simply looking to enjoy swimming as part of your fitness regime then the Cayman is for you.

Once you've finished your fitness routine there are three hydrotherapy massage seats integrated at the rear designed for immediate muscle recovery. With its stunning looks including LED lighting throughout the Reef Spas Cayman certainly ticks all the boxes.

T3 - TruWave Turbine Technology

The T3 Truwave Turbine Technology creates a smooth, natural and extremely powerful counter-swim current. This wide and deep current can be fully adjusted to meet any swimming speed or ability.

Large Swim Lane

The Cayman provides a large swimming lane to accommodate the tallest of swimmers. This wide swim area enables you to perfect your technique without restrictions.

Multiple Cascade Waterfalls

The Cayman has 6 stunning cascade waterfalls each fitted with integrated multicoloured LED lighting to create a stunning "curtain of light" as the water cascades into the swim spa. Waterflow is easily adjusted by a simple dial.

SpaTouch3 Control System

The SpaTouch3 touch screen Control System with integral Wifi makes it easy for you to control your spa from anywhere at any time, directly from your phone.

With the Andros Swim Spa you can experience the best of both worlds: A stunning 19' long swim spa combining a generous swim area with a luxurious spa.

The swim area has three powerful river jets to create a smoothly adjustable swim current perfect for resistance swimming or exercise and to the rear of the swim area are three relaxing massage seats.

In addition, the Andros has a spacious integral spa at the rear. This separate spa has its own fully functional control panel allowing you to heat the spa to the desired temperature and take full control of its varied features and multiple Pulsar jets.

With four comfortable massage seats including a relaxing lounger it makes for the perfect spot for unwinding after a strenuous workout. The spa area also has two deep captains chairs for a great spa experience that all the family can enjoy.

River Jets

The three large River Jets are powered by a three pump system, creating an adjustable current to suit any swimmer style and ability.

SpaTouch3 Control System

The SpaTouch3 touch screen Control System with integral Wifi makes it easy for you to control your spa from anywhere at any time, directly from your phone.

Dedicated Hot Tub Section

The Andros has a dedicated hot tub section which allows its users to set two different temperatures. This means that both the swimmer and everyone else can have the water just right.

NASSAU - 14FT

430 x 225 x 145cm

PERSON **3** 2 SEATS

JETS **35** 3 RIVER 32 PULSAR

PUMPS **4** 3 SWIM 1 MASSAGE

The Nassau is a beautiful 14' long swim spa designed exclusively for Reef Spas. If you are looking for the perfect combination of exercise, fun and relaxation the Nassau ticks all the boxes and will undoubtedly enhance your families well-being.

It comes with three perfectly positioned river jets powered by three powerful 3HP pumps creating a smooth variable current for resistance swimming or exercise.

After you have finished your workout why not relax in the perfectly sculpted, ergonomic massage seats at the rear with 32 jets helping soothe any aching limbs. Why not ask your local dealer if you can test a Nassau – don't just take our word for it.

River Jets

The three large River Jets are powered by a three pump system, creating an adjustable current to suit any swimmer style and ability.
